## ANTARIKSHA KAUTUKAM

### ANTARIKSHA KAUTUKAM

#### Introduction

Astronomy compels the soul to look upwards and leads us from this world to another. This breathtaking contest of astronomy begins with the preliminary events of ASTROTHIRST and PAPER PRESENTATION and will come to an end with the phenomenal event of ASTROHUNT.

#### General rules & structure of the Contest-

- 1) There will be a team of 4 members ( any no. of boys and girls). Students belongs to different colleges can also form a team.
- 2) There will be a parallel preliminary event of ASTROTHIRST and PAPER PRESENTATION in which 2 members from each team will participate in each contest. (2 members will take part in Astrothirst and 2 members will participate in paper presentation event).
- 3) After the Astrothirst & Paper Presentation event the scores of both the events shall be combined to make the final score-card of the team.
- 4) Based on this score card Top 8 Teams will qualify for the final Astonishing event of ASTROHUNT .

The brief details of each event is given below:

#### ASTROTHIRST:

- This is a kind of quiz event which consists of General Astronomy questions.
- There will be 2 round in this event. First one is the normal round and the next is the Rapid Round [Buzzer Round].
- The structure of scoring and the other rules will be disclosed on the day of competition .
- Use of Mobile Phones , internet is strictly prohibited.

#### PAPER PRESENTATION:

- This event will judge the imagination capability of the team rather than their knowledge.
- In this event a hypothetical situation or a realistic condition of any astronomical body [planet, satellite, comet ] will be given to the team with the help of a video clip.
- Based on the given condition or situation a team has to write the paper that how would they tackle with the given situation .
- Please remember that your imagination must be relevant with the practicality.
- Use of Internet or smart phone is prohibited .

#### ASTROHUNT:

- In this astonishing event of ASTROHUNT Campus will be transformed into the UNIVERSE .The celestial objects will be placed as such in the campus as they are actually placed in the universe at a particular instant of time.

## ANTARIKSHA KAUTUKAM

- The teams will be provided initial clues which connects the other subsequent clues. The clue will give the information regarding the Targeted celestial body and the place where it can be found.
- The last clue will be identical for each team.
- The Team which solves the mystery of all the clues first , will be declared as the winner of this event and of the contest as well.
- For this event the teams can use internet or any other source of information.
- The other rules will be revealed on the day of competition. The change of any rules lies in the hands of co-ordinators. The teams will be intimated about this before the start of the competition.
- The runner up team will be decided on the basis of scorecard of first two events and the no. of clues they solved in the last event till the end of contest.

**The decisions of judges shall be treated as the final decisions without any contradiction.**

**REMEMBER:** The questions and the ideas generated in the Astrothirst and Paperpresentation event will help in solving the mysteries of the clues of final Astrohunt event.
